

## ASSIGNMENT 02

---

### RUST BY PRACTICE

1. Here again is your [Link to Continue!](#)
2. Chapters to be done: 9 - 18 (Upto Functional Programing) Ignore Chapter 17!
3. There are three parts in each chapter like earlier: Examples, Exercises and Practices
4. Every exercise has its own solutions. The overall difficulties are a bit higher and from easy to super hard: Easy      Medium  
Hard      Super Hard
5. Developers are to solve up to section 18 and the solution to every exercise will need to be committed to your personal GitHub (Make sure to leave comments on which question the solution is for and also what you understood while solving the question)
6. Each solution will have its own file (say you solved 8 questions there must be 8 solution files). Submit this GitHub repo for evaluation. Email us by **Thursday-28th July** at [achieve@polkadotindia.org](mailto:achieve@polkadotindia.org)

Good Luck!

- Team Polkadot India
